VOLUME CONTENTS

Number 1

Review Paper

D. A. REAY — 1 — Heat transfer enhancement—a review of techniques and their possible impact on energy efficiency in the U.K.

S. H. WON and W. Y. LEE — 41 — Thermodynamic design data for double-effect absorption heat pump systems using water–lithium chloride—cooling

R. BEST, L. PORRAS and F. A. HOLLAND — 49 — Thermodynamic design data for absorption heat pump systems operating on ammonia–lithium nitrate—I. Cooling

L. LIN — 63 — Cellular flow in a rotating heat pipe with stepped wall

T. WADOWSKI, A. AKBARZADEH and P. JOHNSON — 69 — Characteristics of a gravity-assisted heat pipe-based heat exchanger

S. L. CHEN and J. S. YUE — 79 — Water thermal storage with solidification

M. MARTÍNEZ and R. BEST — 91 — Developments in geothermal energy in Mexico—XXXII. Supply and demand perspectives for the year 2000

Book Review

D. A. REAY — 99 — "Enhanced boiling heat transfer" by J. R. THOME

101 — TechAlert Announcements

i — New Patents

xv — Software Survey Section

Number 2/3

R. BEST, W. RIVERA, I. PILATOWSKY and F. A. HOLLAND — 103 — Thermodynamic design data for absorption heat pump systems operating on ammonia–lithium nitrate—II. Heating

A. M. WAKED — 113 — Second law analysis of a cogeneration power-absorption cooling plant

S. D. ODA, K. T. AL-MURRANI and M. K. AL-DOORY — 121 — Estimation of the required collector area of a solar assisted heat pump

E. A. FOUMENY and F. BENYAHIA — 127 — Predictive characterization of mean voidage in packed beds

A. GARCÍA, E. CONTRERAS and B. DOMÍNGUEZ — 131 — Developments in geothermal energy in Mexico—XXXIII. Simultaneous determination of the thermal properties of geothermal drill cores

A. M. EL-HALWAGI, M. A. EL-RIFAI and M. M. EL-HALWAGI — 141 — Maximization of thermal efficiency of fluidized-bed heat regenerators

Y. TAKI, R. F. BABUS'HAQ, R. L. ELDER and S. D. PROBERT — 149 — Design and analysis of a compact gas turbine for a CHP system

S. H. WON, H. S. CHUNG and H. LEE — 161 — Simulation and thermodynamic design data study on double-effect absorption cooling cycle using water–LiBr–LiSCN mixture

A. CAROTENUTO, F. FUCCI, G. LA FIANZA and F. REALE — 169 — Physical model and demonstration of an aquifer thermal energy store

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 181 — Derived thermodynamic design data for heat pump systems operating on R170

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 185 — Derived thermodynamic design data for heat pump systems operating on R13

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 189 — Derived thermodynamic design data for heat pump systems operating on R744

Technical Note

K. MEČÁRIK and M. MASARYK — 193 — Thermodynamic properties of refrigerants R11, R12, R13, R14, R22, R23, R113, R114, R500 and R502

i — New Patents

xiii — Software Survey Section

Number 4

R. BEST, W. RIVERA, I. PILATOWSKY and F. A. HOLLAND — 199 — Thermodynamic design data for absorption heat pump systems operating on ammonia–lithium nitrate—III. Simultaneous cooling and heating

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 213 — Derived thermodynamic design data for heat pump systems operating on R503

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 217 — Derived thermodynamic design data for heat pump systems operating on R1270

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 227 — Derived thermodynamic design data for heat pump systems operating on R23

S.-I. GUSTAFSSON and B. G. KARLSSON — 231 — Linear programming optimization in CHP networks

M. HÄRKÖNEN and A. AITTOMÄKI — 239 The principle of internal regeneration as applied to the adsorption heat pump process

IZHAR-UL-HAQ, N. S. SAXENA, S. E. GUSTAFSSON and A. MAQSOOD — 249 Simultaneous measurement of thermal conductivity and thermal diffusivity of rock-marbles using transient plane source (TPS) technique

S. C. KAUSHIK and Y. K. YADAV — 255 Thermodynamic design and assessment of hybrid double absorption solar cooling systems

E. D. ROGDAKIS and K. A. ANTONOPOULOS — 263 A high efficiency NH_3/H_2O absorption power cycle

F. SÁNCHEZ-SILVA and G. TORRES-TOLEDANO — 277 Developments in geothermal energy in Mexico—XXXIV. Numerical steady-state simulation of the steam supply system of the Cerro Prieto geothermal plant

S. MERCADO and C. L. HEARD — 291 Developments in geothermal energy in Mexico—XXXV. Direct contact and surface condensers in geothermal electic power plants

J. L. FRÍAS, J. SIQUEIROS, H. FERNÁNDEZ, A. GARCÍA and F. A. HOLLAND — 297 Developments in geothermal energy in Mexico—XXXVI. The commissioning of a heat pump assisted brine purification system

Case Study

K. STANISLAV, J. KOMÚRKA, G. EMIL and K. JIŘI — 311 Effective use of waste heat out of distillation solutions

Technical Note

J. O. TAN, C. Y. LIU and Y. W. WONG — 313 Heat pipe heat exchanger optimization

Announcement

321 International Institute of Refrigeration—Solid Sorption Refrigeration

323 New Patents

I Software Survey Section

Number 5

N. D. KAUSHIKA and S. KANEFF — 335 Small power units fuelled by agro-residues and industrial waste heat

K. R. PATIL, S. K. CHAUDHARI and S. S. KATTI — 341 Thermodynamic design data for absorption heat pump systems operating on water–lithium iodide—part I. Cooling

K. R. PATIL, S. K. CHAUDHARI and S. S. KATTI — 351 Thermodynamic design data for absorption heat pump systems operating on water–lithium iodide—part II. Heating

K. R. PATIL, S. K. CHAUDHARI and S. S. KATTI — 361 — Thermodynamic design data for absorption heat transformers—part III. Operating on water–lithium iodide

T. FÖLLINGER and G. P. MERKER — 371 — Periodic high-temperature heat pumps for industrial heat recovery—part I. Fundamentals

I. I. DYAKOV and B. E. PYSHKIN — 385 — Compact heat exchangers based on individually finned flat multichannel tubes

S. M. SAMI and W. LEBLANC — 393 — Study of non-azeotropic refrigerant mixtures behaviour in gravity assisted heat pipes

S. E. ALY — 407 — Gas turbine waste heat driven multiple effect absorption system

R. ÖSTIN and G. JOHANNESSON — 415 — A polymeric approach to counteract frosting in air-to-air heat exchangers

A. K. SHROTRIYA, L. S. VERMA, R. SINGH and D. R. CHAUDHARY — 423 — Prediction of heat storage coefficient of some loose granular materials on the basis of structure and packing of the grains

S. J. VENTER and D. G. KRÖGER — 431 — An evaluation of methods to predict the system effect present in air-cooled heat exchangers

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 441 — Derived thermodynamic design data for Rankine power cycle systems operating on R142b

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 445 — Derived thermodynamic design data for Rankine power cycle systems operating on R22

M. A. R. EISA, K. ABDEL RAHMAN and F. A. HOLLAND — 449 — Derived thermodynamic design data for Rankine power cycle systems operating on R502

453 — New Patents

i — Software Survey Section

Number 6

K. C. LEONG, K. C. TOH and S. H. WONG — 461 — Microcomputer-based design of rotary regenerators

V. M. ARELLANO, D. NIEVA, R. M. BARRAGAN and J. DE LYON — 471 — Developments in geothermal energy in Mexico—XXXVII. Procedure to diagnose production abatement problems in geothermal wells

A. K. SHROTRIYA, L. S. VERMA, R. SINGH and D. R. CHAUDHARY — 483 — Effect of temperature and moisture on the heat storage coefficient of loose granular systems

E. D. ROGDAKIS and K. A. ANTONOPOULOS — 495 — Effect of the interface heat exchanger in composite NH_3/H_2O–H_2O/LiBr absorption-refrigeration systems

S. M. SAMI and M. A. COMEAU — 505 — Experimental study of the dynamic behaviour of non-azeotropic binary mixtures in heat pumps

Y. S. H. NAJJAR and M. B. HABEEBULLAH — 517 — Energy conservation in the refinery by utilizing reformed fuel gas and furnace flue gases

T. WADOWSKI, A. AKBARZADEH and P. JOHNSON — 523 — Hysteresis in thermosyphon-based heat exchangers and introduction of a novel triggering system for low-temperature difference heat-recovery applications

H. LI, A. AKBARZADEH and P. JOHNSON — 533 — The thermal characteristics of a closed two-phase thermosyphon at low temperature difference

S. A. TASSOU and H. AL-NIZARI — 541 — Investigation of the steady state and transient performance of a reciprocating chiller equipped with an electronic expansion valve

S. L. CHEN and J. S. YUE — 551 — Thermal performance of cool storage in packed capsules for air conditioning

Y. K. YADAV and S. C. KAUSHIK — 563 — Psychometric technoeconomic assessment and parametric studies of vapor–compression and solid/liquid desiccant hybrid solar space conditioning systems

Case Study

H. S. E. FATH — 573 — Diesel engine waste heat recovery for drying of clay minerals

Announcements

581 — First International Conference on Aerospace Heat Exchanger Technology

582 — Third World Conference on Experimental Heat Transfer, Fluid Mechanics and Thermodynamics
